## ELECTION DAY FINDS HARDING OFFICES SURE

Senator Celebrates Fifty-Fifth Birthday On Tuesday

### OUTLOOK PROMISING

Expect Big Turnout Of Rural Vote Despite Early Bad Weather

Marion, O., Oct. 2.—Election day found Senator Warren G. Harding confident of victory.

This confidence was partially inspired from last minute telegrams from various parts of the country to the Republican presidential candidate, assuring him that the Republican strength was unwavering and would be more than sufficient for his election. He was assured that Indiana, Illinois, New Jersey and New York would go Republican.

Weather conditions were not good in the Ohio Valley, but the senator expressed his confidence that the rural vote, considered largely Republican, especially in Ohio, would get to the polls, since so many of the farmers have automobiles. It was raining at Marion early today.

Senator Harding had completely relaxed, and while a bit tired from weeks of campaigning, expressed himself as surprised that he had come through in such good shape physically.

Today was the Senator's fifty-fifth birthday and he will know by tonight whether the nation will make him a birthday present of its highest office and endorse the politics he has preached during the past 14 weeks.

**Goes To Polls**  
The Senator arose leisurely, had breakfast and then with Mrs. Harding went to their precinct about 9 a. m. and voted. The voting booth was in a garage and newspaper men and photographers formed a gallery. Weather permitting, Senator Harding planned to motor this morning to the Scioto golf club, Columbus, for a game with Judge Henderson of that city.

All Marion was in readiness for a "hot time" in the old town tonight, if hopes of winning with the presidential candidate are fulfilled. Senator Harding will receive returns at his home with a few friends, including Harry Daugherty, political counselor for many years.

Already hundreds of job seekers letters have reached Harding headquarters, especially from men who wish to be postmasters. They have not waked up to the fact that all postmasterhips are no longer appointive but come under civil service. The Senator also has received a letter from a stranger who modestly offers his services as secretary of state, although he confesses he is entirely inexperienced in foreign affairs.

## How To Read Bomb Signals Election Night

A series of large aerial bombs will be fired Tuesday night, sometime between midnight and 2 a. m., to tell the people of the county how the Presidential election has gone.

The Gazette and the Republican have secured the largest bombs obtainable, which will be fired from mortars set for the purpose, in the Roberts' Addition. The bombs are shot into the air several hundred feet, and then exploded with terrific force, causing a detonation that, with favorable atmospheric conditions, may be heard in the farthest corners of Greene county.

In this new way, the Gazette and the Republican are making the effort to get the returns to all the people of the county, in the quickest possible manner.

### ORDER OF FIRING

First will come a bomb to indicate that we are ready to give the returns. It is merely a signal for everyone to listen for what will follow.

Three minutes after this signal bomb is fired, the bomb or bombs, giving the results of the election may be read as follows:

- One bomb—Harding Elected.
- Two bombs—Cox Elected.
- Three bombs—Election close, and undecided.

In addition to the above, the usual stereopticon returns will be thrown upon a large screen in front of the Gazette building on South Detroit street. For this occasion the best facilities of the country have been provided, and no public in the United States will be better served on election night than the people of Greene county.

## COINS NEW WORDS

Here is Rose Macaulay, novelist, who has added two new words to the English language—"Potterism" and "Potterite." The London papers say that these words are going to work their way into Webster's. What is "Potterism?" Miss Macaulay says it is "muddled emotion that passes for thought." Now you know what to call any one who shows these symptoms.

## WILL ANNOUNCE RETURNS IN TOWNS

Efforts toward the announcing of election returns in four towns of Greene County, have resulted in the establishment of agencies, through which results will be given in these localities Tuesday night.

At Spring Valley Copey's Store will be headquarters for election returns which will come in on Western Union wires.

Richard's Drug Store at Cedarville will receive the Xenia Gazette and Republican election returns from the private wires of these papers.

Yellow Springs will also be supplied in the same manner by the Gazette and Republican. Results will be given out there at the store of Wise and Wead.

At Jamestown election returns will be given out at the Wickersham Hardware Store, from the wires of the Xenia Gazette and Republican.

### LAKE SHIPS EXTRICATED.

Toledo, Ohio, Nov. 2.—The lake steamer William Wolf, which became fast in the New York Central draw bridge holding up trains was released. The Wolf carried 10,000 tons of iron ore.

### COAL SCARCE

Marion, O., Nov. 1.—Only about one half of Marion's homes are supplied with coal and there is scarcely enough gas to cook with.

## WOMEN'S VOTE PREDICTED TO BE 15 MILLION

Congressional Elections Watched By Women Leaders

### WOMEN ON TICKETS

Five Running For U. S. Senate and Fifteen For House.

Washington, Nov. 2.—Reports received this morning by the National Women's Party indicate a women's vote which will come up to the estimate of Mrs. Maud Wood Park, chair man of the National League of Women voters who predicts that 15,000,000 women will go to the polls today and perhaps exceed it.

Two things are being watched with special interest by the women leaders here—the results of the congressional elections and the women vote in the south.

Five women are candidates for the United States senate and about 15 for the lower house of congress.

At the National Women's Party interest centered on Nevada where Mrs. Ann Martin, prominent member of the organization has been waging a picturesque campaign for election to the United States senate as an independent candidate.

The women vote in the south is an object of special interest because of the contention made during the suffrage fight that the women there did not want the ballot.

The reports received here based on the registration records indicate a heavy women vote in most of the southern states. The negro women are reported active in many sections. In two states—Georgia and Mississippi—the women will not participate in the election, suffrage having come too late for registration.

## EXPECT RECORD VOTE IN CLEVELAND AT POLLS TUESDAY

Drizzling Rain Marks Election Day In Northern Ohio.

Cleveland, O., Nov. 2.—Voters of both sexes walked to the polls here this morning through a cold drizzling rain to register their verdict after one of the most strenuous campaigns seen in many years. In the residential precincts early reports indicated that women were turning out in even larger numbers than men to exercise their newly won right to help decide the affairs of the nation and state with their ballot.

Confident claims of victory were expressed at both Republican and Democratic headquarters. Maurice McEersche, veteran Republican leader, insisting that Harding would carry the county by 50,000, and that no Republican would have less than 20,000 plurality.

On the other hand Democrats were no less confident, and while their claims were more modest they appeared to have at least an equal basis so far as faith of the predictors in their accuracy was concerned.

A record vote will be polled here and friends of Harry L. Davis, Republican nominee for governor are bending every effort to send him downstate with a lead that his Democratic opponent will find too large to overcome in rural Ohio.

## TWO KILLED WHEN BOILER EXPLODES

Akron, Nov. 2.—Engineer Reich, Youngstown, and an unknown flagman, also of Youngstown, were instantly killed at 7 o'clock this morning when a Baltimore and Ohio engine boiler exploded a mile west of Sterling station.

W. H. Harris, fireman, also of Youngstown, was seriously scalped but doctors think he will live.

The flagman was riding in the engine cab at the time of the accident. No cause for the explosion has been ascertained.

### HAND CAR RIDERS KILLED

Youngstown, Ohio, Nov. 2.—Three were killed in accidents, Marco Pastori, 55 years old, and Thomas Pavlovich, 60 years old were killed when the hand car on which they were riding was struck by a Baltimore and Ohio train four miles east of Newton Falls, Trumbull County. George Antel, 9 years old was killed instantly when struck by an automobile.

## NEW RULER AND REGENT OF GREECE

Prince Paul, younger brother of the late King Alexander, who has been proclaimed King of Greece by the Greek Parliament. The Prince, who is 19 years old, was born in Athens on December 1, 1901, and is not married. Since his father, former King Constantine, left Greece, Prince Paul has been with him in Switzerland. Previous to the selection of the new King, the Greek Chamber of Deputies elected Admiral P. Contouriotis as Regent. He was minister of marine in the Venizelos Cabinet.

## OUTBREAK OF VIOLENCE SWEEPS OVER IRELAND

## GENERAL APATHY REPORTED IN WEST: G. O. P. CONFIDENT

No Record Turnout Expected In Pacific Coast.

San Francisco, Nov. 2.—Despite a record registration of voters—1,374,184—political observers were inclined to doubt that California, pivotal state in 1916, will be a record vote today. They attributed this prediction to old "general apathy."

On the other hand political leaders of both parties were making every effort today to "get out the vote" aided and abetted by perfect weather. Republican leaders claimed the state by 250,000 for Harding and Coolidge. Democratic leaders were making no predictions on the national ticket.

The fight of Senator James D. Phelan, Democrat, for re-election has been spectacular and thorough. His Republican opponent, Samuel D. Shortridge, has also made an effective and thorough campaign. Political observers say the senatorial election will be close. The polls opening at 6 a. m. will remain open until 7 p. m. The ticket is one of the largest in the history of the state.

## HARDING GIVEN LEAD BY TOWN

New Ashford, Mass., Nov. 2.—This town, the first in the country to report on the election today gave for president: Cox (D) 6; Harding (R) 28. In 1916 New Ashford gave for president: Hughes (R) 16; Wilson (D) 7.

## THIRTY MILLION WILL CAST VOTES IN U. S.

### HIGH POINTS IN THE ELECTIONS

Approximately 30,000,000 Americans are electing today:  
A president of the United States.  
A vice president of the United States.  
Thirty-four United States senators.  
Four hundred and thirty-five members of the United States House of Representatives.  
Governor of 34 states.  
Thousands of minor state and county judges and officials.

## GOVERNOR CASTS VOTE NEAR DAYTON

Dayton, Ohio, Nov. 2.—Gov. James M. Cox and Mrs. Cox stood in line for twenty minutes today with a chill by wind blowing, before they cast their ballots in a little barber-shop at Carmonte, near Dayton, today. About seventy-five men, women and children were at the voting place of the village when the Governor's car drew up from Triltsend, his country place nearby.

As the crowd recognized the automobile, a lusty cheer went up, which was the signal for the popping of heads through hastily opened windows in adjoining houses, while more men and women, many of them dragging children by the hand, came hurrying to the scene.

### ELECTION BRIEFS

**EXPECT RECORD VOTE.**  
Wheeling, W. Va., Nov. 2.—Despite cold and wet weather today voters throughout the state are out in great numbers and the total number of votes will run close to 600,000, a record for this state.

**CLAIM TENNESSEE.**  
Nashville, Tenn., Nov. 2.—Democratic headquarters here claim that Gov. Cox will carry Tennessee today by a majority of 50,000 votes. Republican leaders admit that Cox will run ahead of Harding in this state, but they are claiming a Republican victory in the state election.

**OUTNUMBER MEN.**  
New York, Nov. 2.—At noon today election officials estimated that the women who had voted in New York City outnumbered the men by three to one. Election officials expressed surprise at the outpouring of women voters and their evident desire to have their votes recorded early.

**BOTH CLAIM STATE.**  
Santa Fe, N. M., Nov. 2.—Both Republican and Democratic headquarters early today claimed the election in New Mexico. Harding by 8,000 and the state ticket by 5,000 was the Republican leaders' statement, while Democratic leaders said "Cox will win by 5,000 and the Democratic state ticket by at least 8,000."

**SNOW IN WYOMING.**  
Cheyenne, Wyo., Nov. 2.—More than two feet of newly fallen snow will greatly interfere with voting in northern Wyoming today.

Republican leaders claimed a majority of over 5,000 for Harding. Congressman Mondell, Republican house floor leader claims re-election.

**WEATHER BRIGHTENS.**  
Cincinnati, O., Nov. 2.—Sudden brightening of the weather this morning is calculated to help a record vote being cast in and about Cincinnati. Women were early at the polls and seemed to get along admirably in marking their ballots.

**RUN NECK AND NECK.**  
Topeka, Kas., Nov. 2.—Harding and Cox were running neck and neck in this city, according to the first results announced by the election commissioners just before noon today. The first 200 votes cast in four scattered precincts gave Harding 106; Cox 93; Debs 1.

**Columbus Vote Heavy.**  
Columbus, O., Nov. 2.—An unprecedented vote is being cast here, according to reports reaching the Franklin county board of elections.

## CONFIDENCE IS ORDER OF DAY FROM LEADERS

Activities In Political Camps at Standstill On Final Day.

## WEATHER UNSETTLED Rain in Sections East Of Mississippi Is Reported.

New York, Nov. 2.—Approximately 30,000,000 Americans, men and women, are going to the polls today to register their choice for president and vice president of the United States. The number may be greater or it may be less, but political leaders on both sides have agreed that the figure 30,000,000 is a fair forecast.

Four years ago the votes cast was 18,503,022. Since that time upwards of 20,000,000 women have been enfranchised. How many of these will use the ballot today can only be conjectured, politicians say, but they are hopeful that considerably more than half of them will.

At both Republican and Democratic headquarters activities had practically ceased. Their work completed, party managers and attaches loafed about, speculating, figuring and receiving reports by telegraph and telephone from all over the country.

### Day Is Cloudy.

Election day dawned cloudy and muggy in many parts of the country. The weather bureau warns that voters east of the Mississippi would have to brave rain to cast their ballots. Generally unsettled weather was reported from many states. The weather reports did not find much favor at Republican headquarters. National Chairman Will H. Hays has frequently declared that Republican hopes of carrying mountain border states like Kentucky and Tennessee rested on fair weather, so that the mountain districts, which are predominantly Republican, could get their votes to the polls.

The final day found both Democrats and Republicans breathing confidence, at their national headquarters here. Chairman Hays asserted that Harding's election will be accomplished with 368 electoral votes with a strong probability that he will run up to 395. At Democratic headquarters Chairman George White and his co-workers for Governor Cox were equally assertive that "Governor Cox is going to wit on a great moral issue."

Casting aside the claims of both sides, neutral observers were generally agreed that the result of the election hangs on the so-called doubtful states such as Indiana, Missouri, Colorado, Connecticut, Maryland, West Virginia, Kentucky, New Jersey, Ohio, New Hampshire, New Mexico, Arizona, Montana, Nevada and Utah.

**Candidates at Homes.**  
The candidates themselves spent the momentous day quietly at their homes—Governor Cox at his rural retreat at Triltsend, near Dayton, and Senator Harding at his Mount Vernon Avenue residence in Marion, from which he has conducted the major part of his campaign.

Early reports to Republican and Democratic headquarters indicated that the vote in populous cities and thickly settled rural districts were getting in early. The proportion of women among the early birds was heavy.

In New England early reports showed an unusually heavy early vote, with many women eager to cast their ballots for the first time.

Leaders on both sides were fearful that the election machinery in many parts of the country would prove inadequate to meet the demands made upon it. Universal suffrage increased the number of voters in the United States by anywhere from 60 to 100 per cent with no corresponding increase in the facilities to take care of it. Party workers declared that this may make the returns slow in getting in tonight in addition to causing confusion and congestion at the voting booths.

### WILSON RESIGNED

Washington, Nov. 2.—Secretary Tumulty is quoted as saying Wilson will not suffer physically, no matter how the election goes tomorrow.

### ANTI-SOCIALISTS VICTORIOUS

Rome, Nov. 2.—Anti-Socialist candidates were victorious in the municipal elections held today, being given large majorities.

## REPORT MUTINY BREAKS OUT AMONG TROOPS AT MOSCOW; UNCONFIRMED

London, Nov. 2.—An Exchange Telegraph dispatch from Copenhagen today quotes the newspaper Politiken as saying that travellers from Russia report that a mutiny has broken out among the troops at Moscow; that 6,000 have been arrested and 200 executed. This dispatch is not confirmed from any other source.

The International News Service received a dispatch from its Moscow correspondent dated Sunday but no mention was made in it of a mutiny or disorders of any kind.

## Gets 28 Eggs A Day Now, From 34 Hens

C. C. White, Well-Known Breeder, Tells How. Costs Nothing to Try.

"I gave Don Sung to 34 utility Buff Orpingtons and the egg yield increased from 2 to 28 a day. Don Sung is a wonder and I am now giving it to all my hens regularly."—Chas. C. White, Mgr., Hill Farm, Blackville, Ind.

Mr. White is the well known breeder and exhibitor. He wrote the above letter in December, after his nest had shown a gain of 21 eggs a day from 34 hens. We will make you the same offer we made him. Here it is:

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be cheerfully refunded.

Don Sung (Chinese for egg-laying) is a scientific tonic and conditioner. It is easily given in the feed, improves the hen's health and makes her stronger and more active. It tones up the egg-laying organs, and gets the eggs, no matter how cold or wet the weather.

Don Sung can be obtained promptly from your druggist or poultry remedy dealer, or send \$1.00 (inclose for a pack) by mail prepaid. Burrell-Dugger Co., 214 Columbia Bldg., Indianapolis, Ind.

Makes a Family Supply of Cough Remedy

Really better than ready-made cough syrups, and saves about 5c. Easily and quickly prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2 1/2 ounces of Pinex, pour it into a pint bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money.

Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the paroxysm, tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs.

To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You get a little jar of Mentho-Sulphur at any drug store.

## New Hair Growth After BALDNESS

On legal affidavit, John Hart Brittain, business man, certified to this: "My head at the top and back was absolutely bald. The scalp was shiny. An expert said that he thought the hair roots were extinct, and there was no hope of my ever having a new hair growth."

"Yet now, at an age over 66, I have a luxuriant growth of soft, strong, lustrous hair! No trace of baldness. The pictures shown here are from my photographs." Mr. Brittain certified further:

INDIAN'S SECRET OF HAIR GROWTH

"At a time when I had become discouraged at trying various hair lotions, tonics, specialists' treatments, etc., I came across, in my travels, a Cherokee Indian 'medicine man' who had an elixir that he asserted would grow my hair. Although I had but little faith, I gave it a trial. To my amazement a light fuzz soon appeared. It developed, day by day, into a healthy growth, and ere long my hair was as prolific as in my youthful days."

"That I was astonished and happy in expressing my state of mind mildly. Obviously, the hair roots had not been dead, but were dormant in the scalp, awaiting the fertilizing potency of the mysterious pomade. I negotiated for and came into possession of the principle for preparing this mysterious elixir, now called Kotalko, and later had the recipe put into practical form by a chemist."

That my own hair growth was permanent has been amply proved."

How YOU May Grow YOUR Hair

It has been proved in very many cases that hair roots did not die even when the hair fell out through dandruff, fever, alopecia areata or certain other hair or scalp disorders. Miss A. B. Otto reports: "About 8 years ago my hair began to fall out until my scalp in spots was almost entirely bald. I used everything that was recommended but was always disappointed until at last I came across Kotalko. My bald spots are being covered now; the growth is already about three inches." G. W. Mitchell reports: "I had spots completely bald, over which hair is now growing since I used Kotalko." Mrs. Matilda Maxwell reports: "The whole front of my head was as bald as the palm of my hand for about 15 years. Since using Kotalko, hair is growing all over the place that was bald."

Many more splendid, convincing reports from satisfied users. Kotalko is wonderful for women's hair.

Contains GENUINE BEAR OIL and other potent ingredients. No alcohol, no shampoo; but a hair elixir of wonderful efficiency. All ingredients are safe and harmless, even for a child's scalp and hair. Positively KOTALKO is one of the most reliable hair preparations that succeeds upon genuine merit. Buy a box of KOTALKO at the drug store. Or ask for Kotalko at the toilet goods or drug counter of any large department store. Remember the name. Accept nothing else as "just as good." \$100.00 GUARANTEED. ### HALLOWEEN PARTY AT LAUMAN SCHOOL.

The Lauman School, Xenia township was the scene of a very pretty Halloween party last Friday evening. Among the guests were Miss Cora Matthews and her pupils entertained the patrons and friends of the district.

A program consisting of songs, dialogues, a pantomime and readings were given by the pupils. The domestic Science Class of the school served pumpkin pie, ginger bread, apples and coffee to the guests. The school room was decorated in keeping with the season. There were about ninety present.

### MEETING OF MISSIONARY SOC. OF FIRST M. E. CHURCH.

The second Auxiliary of the Women's Home Missionary Society of the First M. E. Church held their November meeting at the home of the pastor, Rev. and Mrs. G. A. Scott, Monday afternoon. The parsonage was decorated in Halloween fashion and black cats and ghosts predominated.

Miss Straley of the O. S. & S. O. Home was responsible for the attractive decoration. The mite boxes of the Society were opened at the meeting and it was found that they contained \$60.

A program was given by the members with Mrs. Thorb Charters as the leader of group 2 in charge of the program. A synopsis of the 2nd chapter of the book being studied by the Society "The Church and Community" was given by Mrs. S. O. Hale. Mrs. W. C. Downes, Mrs. Walter Currie, Mrs. Thorb Charters and Miss Mildred Fudge gave a short sketch to the members, the idea being an appeal for the women to realize the opportunity of the vote and Miss Mildred Fudge represented the "Women of Tomorrow," and she gave her conception of the duties of the "Woman of Today" and their bearing on the "Woman of Tomorrow."

The women assisting Mrs. Scott as hostesses were: Mrs. G. I. Graham, Mrs. Confer, Mrs. Arnold, Mrs. Bigham, Miss Lorena Paulin, Miss Cora Williams, Mrs. Croft and Miss Straley.

A short business session was held and it was decided to use some of the funds of the Society toward the linen and silver fund of the Homes and Hospitals. Following the business meeting, refreshments were served.

### ENTERTAIN AT HALLOWEEN PARTY

## WOMEN TURN OUT IN LARGE NUMBERS AT XENIA POLLS TUESDAY TO VOTE

Officials at Voting Places Are Kept Busy To Take Care Of Unprecedented Vote In City—Booths Are Filled During Day.

The most remarkable election in the history of the United States was in course of consummation Tuesday. For the first time in the country's history, women took their places beside men as officials at the polls and stood in line with men for the opportunity to cast their ballots.

That a full vote will be drawn out this year and that women will not be backward in exercising their new found rights was evidenced by the early vote at all polling places. Although reinforced with the addition of two clerks in each voting place, poll officials were crying for help shortly after the polls opened at 5:30 o'clock Tuesday morning.

## SELECTED TO FILL VICE PRESIDENCY OF H. & A. COMPANY

John D. Steele, Jr., was elected to the position of vice president of the Hoover & Allison Company, at a meeting of the Board of Directors of the Company held Monday.

Mr. Steele will fill the position made vacant by the retirement several months ago of A. S. Frazer, who for some time was vice president of the company.

John D. Steele, Jr., was appointed Assistant General Manager of the Company several months ago, and that appointment also was confirmed by the Board at its meeting Monday. Mr. Steele assumes his official position as vice president of the company at once, as the vacancy has been existing for several months.

## ARMY RECRUITS SET RECORD IN STUDIES

Washington, Nov. 1.—Recruits for the regular army continue to flock in at record-breaking rates, Adjutant General P. C. Harris' office announced tonight, 17,625 enlistment accepted during October broke all peace-time records for the month.

A notable matter in connection with the record, it was said, was that 66 per cent of the month's enlistment were for the full three-year period, while in previous months about half of the men have sought only one year of service.

The educational advantages offered by the army on its new basis, General Harris said, is given by nearly all the recruits as the reason for enlisting.

The total strength of the army is now 208,781 officers and men of whom 158,466 are in the United States.

## CAPTAIN ACCUSED AFTER STEAMER SUNK

Providence, R. I., Nov. 1.—The United States Inspector of Steam Vessels has brought charges of negligence, unskillfulness and violation of pilot rules against Captain H. A. Biggins, master of the steamer Cape Fear, which sank in Narragansett Bay Friday night with a loss of 17 lives after having collided with the steamship City of Atlanta, of the Savannah line. Inspectors R. B. Clarke and R. P. Bailey charged that Captain Biggins permitted the pilot to leave the ship when the ship was in Narragansett Bay when he should not; that he changed the course after having signalled to pass in another direction, and that, after having heard the danger signal of the City of Atlanta, he failed to stop and reverse the engines of the Cape Fear.

### WEATHER CHILLY.

Chill, forbidding weather greeted citizens who came out to vote Tuesday.

Rain during the night stopped early in the morning and for a time the weather was comparatively warm, the sun peeping out for a few minutes.

Later a cold wind chased clouds across the sun, and the day resolved into a windy and chilly bleak day. The weather did not seem to daunt voters however, who turned out early despite the unfavorable conditions.

Board of Elections from almost every precinct in the city, with the result that more assistants were rushed to the polls to help take care of the large number of voters and get them voted as quickly as possible. In some polls where there is as usual heavy voting, the crowd was on hand early in the morning and there was a line in waiting practically all day long.

The vote in the up-town precincts shortly after noon was as follows: Precinct A .....293 Precinct B .....318 Precinct C .....342 Precinct D .....532 Precinct E .....422 Precinct F .....320 Precinct G .....381 Precinct H .....234 Xenia North .....360 Xenia South .....338

The vote in practically all of these precincts at noon is considerably more than the normal presidential vote for the entire day during the years before women voted. In Precinct E, the normal complete presidential vote used to be 360, in Precinct D it used to be 375, in Precinct C it formerly was 290, in Precinct F, it was 225, in Xenia North the vote used to be between 400 and 500 and in Xenia South the vote was formerly 400.

Election judges had to watch closely all day Tuesday to keep women from casting sample ballots. The majority of the women, planned out on a sample ballot how they wished to vote before hand, and carried the samples into the booths with them in order to aid them in marking their tickets. Many of them, forgetting, handed the sample ballots to the judges instead of the official ballots, and it is thought that some of these sample ballots were cast in this way.

When the 532nd ballot had been cast in Precinct D, the largest precinct in the city, there were still 50 people standing in line before 5 o'clock Tuesday afternoon. It is estimated that there are 800 votes in the precinct now, and it appeared Tuesday afternoon that almost a complete vote would be cast from that precinct. In Precinct E, another heavy vote was reported, more than 100 having cast their ballots at eight o'clock. At one o'clock the vote in E was 422, running second highest in the city. Help was required in practically every precinct and election board members crafted a number of clerks at the last minute and distributed them in the different polling places.

From indications it would appear that both men and women are aiding the officials as much as possible by voting early. The women especially, attempted to observe the order to vote between eight and three o'clock, excepting those who had to go to work, and so the early and late hours were mostly reserved for working people.

While some few amusing instances were told by poll officials in regard to the awkwardness of the new voters, it is a matter for the women to be proud of that the great majority of them not only voted expeditiously but that they also seemed to have a clear idea of how they wanted to vote and how to go about it and they occasioned the officials very little delay through ignorance of the methods.

## CONDUCTS PICTURE SHOW AT OFFICE

Through the kindness of R. Hayes Hamilton, now of Washington D. C., and creator of the famous Hamilton Travelogue lectures, who is visiting in this city, the Gazette and Republican's election night party is expected to be one of the most complete offered by any newspaper in this section.

Mr. Hamilton has offered his services and the use of his complete motion picture equipment in throwing slides and bulletins on the big screen erected in front of the office of the Gazette and Republican, and between election news he will keep the interest of the crowd with real "movies."

## COURT NEWS SUIT FILED AGAINST MAN FOR RECOVERY

A suit filed in Common Pleas court Tuesday morning is titled Josephine Craig against W. M. Craig.

The plaintiff declares in the petition that she was the beneficiary of a life insurance policy of the late Addison Craig in the sum of \$500. She charges that she gave the policy to the defendant to collect and that he has refused to account to her for it.

In the suit she prays that the defendant be requested to render an account of the amount collected on the policy, and for judgment against the defendant for the amount found due, and for all proper relief Attorney H. C. Armstrong filed the suit.

## SUPPORT PROTEST ON RATE INCREASE

Township Chairmen of the Greene County Farm Bureau at a meeting held Saturday, heartily endorsed the statement of the Chamber of Commerce has taken on the increased telephone rates question, according to a communication from County Farm Agent Ford S. Prince.

At the meeting Saturday a resolution was passed by the Township Chairman commending the action of the Chamber in protesting the proposed rate increases and volunteering the support of County Farm Bureau in backing up the commercial body on the proposition.

## BRANDENBURG WILL ADMITTED TO PROBATE

The last will and testament of Mary J. Brandenburg, admitted to probate Monday, disposes of an estate of \$16,000.

Two codicils were executed to the will, which was originally executed Sept. 13, 1906. The original will bequeaths to Mary Light all the household goods and furniture. It disposes that all of the residue of the estate be sold and that the money be divided as follows: \$700 to the trustees of the Baptist Methodist Church, Dayton; \$200 to Lucina Worley; \$200 to Warren Brandenburg; \$200 to Albert Brandenburg; \$800 to Mary Light and the residue to be divided between Charlotte B. Overton and Franklin Light, share and share alike.

In the first codicil, it was provided that in the case of the death of Mary Light that all bequeathed to her should go to Charlotte B. Overton, and also \$500 additional and that \$200 should go to Rhea McCune. In the second codicil Richard T. Ayres was appointed as executor in place of Raymond H. Swadener, the original appointee, who left the state at the time of the execution of the codicil in 1908.

### Committed to Hospital.

## CALL MEETING FOR ROAD IMPROVEMENT

A meeting to reform Ohio's road improvement policy is to be called for Columbus by the Ohio State Automobile association.

Officers and trustees of the state motor organization meeting at Columbus last week, determined to call a state-wide conference in the belief that Ohio has failed to date to realize a connected system of highways such as the millions of dollars spent for materials and constructive foundation should have brought about. A complete revision of the legislative foundation of the system will be out-

lined by the formation of a new Good Roads Board of the Ohio State Automobile association and it will be brought before the new legislature when it convenes in January.

Members of the roads committees from all the clubs in the state association, state and county highway officials, and authorities from other states will attend the Columbus conference to analyze the Ohio situation and to prescribe the new deal for the future.

## INCREASE IN PHONE RATES IS EFFECTIVE IN THIS COUNTY

The proposed increase in telephone rates to subscribers to the Central Union Telephone Company in this county, requested before the State Public Utilities Commission some time ago, went into effect Monday, with the first of the month.

Protests filed against the proposed increase with the Public Utilities Commission by the Chamber of Commerce, have caused that body to set a hearing on the proposed rates for November 30, and such notice has been made to both the Company and the Chamber of Commerce so that both will have representatives present to argue the case.

However, under the Robins law, the Central Union Telephone Company was enabled to put up a cash bond, and make the rates effective at once, as advertised. This bond is to insure that in case the Utilities Commission decides in the hearing Nov. 30 against the Telephone Company, and in favor of the Chamber of Commerce that the company will be liable to pay back extra money to subscribers collected on the increased rates.

As the Telephone Company collects its money in advance, the bills sent out the first of the month will be made out under the new rate, which subscribers will be forced to pay, pending the hearing of the case, despite the protests filed. If the Commission decides that the rates are unjustified, however, this money will be refunded to patrons of the company, it is announced, for which reason the bond of \$5,000 is required.

## SCHOOL PUPILS INSTRUCTED ON HOW TO VOTE TUESDAY

A practical example of instruction in citizenship was offered the pupils of Central High School and McKinley Junior High, Tuesday, when the pupils were given the privilege of showing their sentiment in the election by casting the ballot at the schools. Judges and clerks in the two schools were appointed and they conducted the voting on the same plan as the regular polls.

Superintendent Waltz inspected the voting plan at both schools and was well pleased at the way it was carried out. The voting at McKinley was in charge of Professor Black and Miss Harper, principal of Junior High. The good point notice at McKinley, was, after the instructions were given the pupils took the responsibility in their own hands and carried it off with much credit.

The officers appointed at Central high to have charge of the voting were: William Davidson, president; Judge, Elizabeth Dods, Olivia Cost and William McCormick. Clerks: Bruce Ferguson, Wilfred Crow and Lucile Chambliss.

The tickets voted upon were the regular schedule the school provision, House Bill No. 620, State-County and National ticket.

The names of the pupils were taken by their number. After their registration they marked the ballot and it entered the ballot box. The votes will be counted after the large number of pupils have taken their turns.

## EIGHTY THOUSAND DOLLARS IN BONDS SOLD IN TOLEDO

The \$80,000 worth of bonds, issued by the city to finish the paving contract were sold yesterday to W. L. Slayton & Company of Toledo.

The bonds, which bear six per cent interest, were accepted by the Slayton Company at par and accrued interest. It is the opinion of many people that these \$80,000 worth of bonds were issued to make up a deficit in the payment and sewer funds caused by a mistake in the estimated cost, but this is not the case, according to City Manager Kenyon Riddle.

The city's estimate was \$189,114.50 and the lowest bid on the work, which was the bid accepted was \$197,412.75 which shows that the estimate was only \$8,298.25 below the lowest bid, according to Mr. Riddle. The actual cost, according to figures in the manager's office was \$193,461.60, which it is pointed out, proves that the city's estimate was only \$4,000 less than the actual construction cost of the work.

The final cost, however, it is explained by Riddle, is made up of the construction costs and the administrative charges. The paving cost being \$194,461, added to the sewer cost of \$35,756 and the administrative charges of \$51,000 makes a total cost of \$280,000. The bonds were originally issued in the sum of \$200,000 only to cover a part of this cost, according to Mr. Riddle and when this money was used up, the extra issue of \$80,000 was made necessary.

## FUNERAL SERVICES HELD ON MONDAY

The funeral services of Miss Beas Chambliss were held at the late home on W. Third street, Monday afternoon at 2 o'clock. The services were in charge of Rev. G. A. Scott, of the First Methodist church, and Rev. Albert Reed, of the Baptist church offered prayer. The pallbearers were the three brothers and three cousins: Harry, Benjamin and Ralph and Homer, Gall and Bert Chambliss. Burial was made at Woodland cemetery.

## "BUILT UP A NEW STOMACH FOR ME" SAYS P. L. OREM

Traveling Man Tells How Dr. Jackson's Digestive Powder Made Him Over.

Commercial travelers, who must put up with irregular meals and unwholesome cooking, are often the victims of indigestion. Many of them have found the Dr. Jackson Powder a great comfort and boon. Here's a typical bit of proof.

"You are to be congratulated on the wonderful cures of stomach trouble made possible by your powder. You will probably find the writer's name on your books about seven years ago, at which time you (no doubt thinking it was a jobbing druggist) sent me two dozen packages of your powder. However, this was a fortunate move, as I gave all of this excepting two packages to friends of mine, none of whom can say too much for your goods. The two packages which I kept just simply built a new stomach for me; but due to neglect (partly compulsory, as I am a commercial traveler) I am having a little trouble with my stomach, so I am enclosing check for which please send me two packages, Dr. Jackson's Digestive and Liver Powder."—P. L. OREM, Binghamton, N. Y.

If this wonderful Powder does not do for you what it did for Mr. Orem, Sayre & Hemphill will hand you money back.

LIKE OUR WAY OF GETTING A RULER BETTER THAN SOME "OVER THERE."

We used, sometimes, to think our government weaker than a monarchial one; but of late we have changed our opinion, since we see so many of the old countries tried with dissension, and some of them with practical revolution. So, as we have just peacefully passed through a national election, we are all for Uncle Sam. We feel pride in our government "of the people, for the people, by the people." No "born to rule" monarch would suit us at all.

Now there is Greece. It is said to have existed 1000 years before Christ came to earth, so that if antiquity counts for anything in the way of wisdom, the people ought to know at least enough to govern themselves. But the way they seem to be doing it, we of the new dispensation, call it a "back number."

When the Rulers of Germany kicked over the traces of common sense and humanity, five years ago, the people of Greece, knowing their King Constantine to be a blood relative, inferentially asked him to step down and out. In fact they made it so hot, that he felt obliged to go to Switzerland for his health, and he is there yet. Then, for a time, they recognized Constantine's second son, Alexander, as their ruler, but he has just died. And now, "in conformity with the constitutional order of succession," the younger brother of King Alexander, King Constantine's third son, Prince Paul, is called to the throne—A TWENTY YEAR OLD BOY.

"How would our people like that?" we asked a friend. The answer came back quick: "They wouldn't like it—and they wouldn't have it." Just so. We are not near so old as Greece, but we would not have a twenty year old boy for our President. The constitution requires him to be 35 years old. Of our 27 Presidents, Theodore Roosevelt was the youngest, being only 42 years old when William McKinley died and he became President. And he was one of our wisest men, the author of fifty books on all kinds of subjects.

But we give Prince George credit for knowing that he is only a "kid," and should not think of having sense enough for a ruler of Greece. "The throne does not belong to me," Prince Paul declared, "but belongs to my august father, King Constantine, and my eldest brother, Prince George, is constitutionally his successor. Neither of them ever renounced his rights, but both were obliged to leave Greece in obedience to their supreme patriotic duty."

It will be remembered that the Ministers in extending the offer to Prince Paul, said the Greek Government desired to know in advance whether King Constantine and Prince George would recognize the accession of the younger Prince. So there you are—the people won't have the father or elder brother, and the "kid" knows he would be no good as a King.

We have had only one or two occasions of trouble in our Presidential elections, when the people of the south part of the nation wanted to own men, women and children, the same as they did their horses and cows. But, thank God, the nation had grown too big and just for this.

"AN OUNCE OF PREVENTION IS WORTH A POUND OF CURE."

Take care of your health; you have no right to neglect it, and thus become a burden to yourself, and perhaps to others. Health is certainly more valuable than money, because health enables us to earn money. The poorest man would not part with health for money, but the richest would gladly part with all his money for health.

We are reminded of the panic in the community in Xenia, a couple of years ago, when a number of our citizens lost their lives from typhoid fever, and what an earnest effort was made to discover the cause, to put the blame where it belonged. We believe it was generally conceded then that our water supply was infected, though often denied, and often re-blamed. Then we had the Water Works Company on which to put the blame—now, if another like trouble should come, we have only ourselves to blame, as "we the people" own the water supply. It therefore behooves us the more to see that this essential to our existence is free from contamination.

The story of the past two weeks' epidemic of typhoid fever at Salem, Ohio, brought under control by health authorities, was told in a statement Sunday from the State Department of Health.

Pollution of the city water supply by sewage which entered through leaks in a tile pipe conveying water from wells to the pumping station caused the outbreak of more than 6,000 cases of enteritis (inflammation of the small intestines), and 82 cases of typhoid, the investigators stated.

Two hours after bacteriological tests of the water had yielded evidence of contamination, an engineer left Columbus for Salem, taking the chloride disinfection apparatus. Residents were advised to boil the water. Anti-typhoid vaccine was supplied by the State Department. City officials were instructed to abandon the tile pipe line, which had been installed in the years before approval of public water supply systems by the State Department of Health was required.

The Salem experience demonstrated the importance of safeguarding a city water supply against every possible source of contamination, however remote the danger may appear to be," said the Health Department's statement.

"Numerous other cities in the state have similar systems and might at any time be victims of an outbreak. It therefore is the duty of every community to study its own situation and eliminate such dangerous features as leaky gravity lines, cross-connections with industrial water supplies, well covers not sealed against surface contamination and emergency intakes from impure sources."

We take it for granted that our City Manager is realizing his great responsibility to the community, at this season of the transition of our water supply to a new source.

## A NEW VERSION OF AESOP'S FABLE OF THE ANT AND THE GRASSHOPPER

16 years. Massachusetts has furnished two (John Adams and J. Q. Adams) and they served eight years. The only other states in which presidents have been born are Kentucky (Lincoln), New Hampshire (Pierce), New Jersey (Cleveland), Pennsylvania (Buchanan), and Vermont (Arthur). Hence only 10 states out of the 48 have bred men who became presidents.

Now either James M. Cox or Warren G. Harding has been elected President, and if such one lives to the 4th of March next, Ohio will then have had seven Presidents. Good for Ohio. You must remember she started late.

### THE DAY'S LETTERS

Embarrassed.—As this growth has been so recent, it is possible that you will be able to destroy it. It will take a long time to do it without injury to the skin, so do not resort to any drugs that are supposed to kill the hair follicles with a few applications. Depilatories are not to be recommended for the face, as their action is only that of shaving the hair off the surface of the skin. Try the following method.

Apply peroxide of hydrogen to this growth one day and on the following day apply a weak solution of ammonia. Then alternate the two each day. It may take all of six months before you have destroyed this growth, but it is worth the time as it is perfectly safe and will not injure the skin. It will also bleach the hair so it will not be noticed. The treatment, however, must be persistent or the results will be indifferent.

Dolly Dimples.—A girl of 15 years, who is five feet five inches tall should weigh about 120 pounds. Bobbed hair is quite fashionable and not at all out of place for a girl of 15 years of age even though she is unusually large; it is being done a great deal this season by young women who are many years older than yourself. You can rid yourself of tan by applying the juice from cucumbers. Buttermilk or lemon juice is also good for this purpose. You will likely lose both the pimples and warts as you grow up. Rub some oil into the warts to soften them, they will some times dissolve and be thrown off in bathing. If you live on a simple nourishing diet, instead of starchy foods, fats and sweets, your pimples will disappear.—You are about 15 pounds overweight. There are many good face powders in the market. Purchase only the best and from a reliable dealer.

Blue Eyes.—Wave the hair by using soft kid curlers, then comb it all out until it looks fluffy, without being actually curled. Part the hair on the side and take it to the top of the head and confine it in a barrette, letting the rest hang freely all over the shoulders. All of the dark shades of brown or blue will be becoming to you as they strengthen your type in the paler colors, rose, green or yellow will be suited to you.

Mrs. Martha—Plain corn starch is very good for powdering the hair. It is heavier than the face powder, which keeps it from blowing out of the hair during the evening. One-third talcum powder and two-thirds corn starch will give a nice consistency which will stay in the hair and still produce a soft and becoming effect.

Apple Blossom.—The best way to make your brassieres would be to get a pattern. This can be purchased for a small sum a tany shop that has a department of this kind. Fit the brassiere to your size before you stitch it together.

J. F.—If you send an addressed stamped envelope and state your need we will be pleased to mail you the directions for the henna treatment.

Betty S.—I have never heard of a tea that will turn dark brown hair to jet black. As you state that your eyes are brown and skin dark, black hair would not be becoming at all. Your own color is by far the more preferable of the two.

"YOUR MEDICINE IS O. K." Mrs. Charles Rule, New Digging, Wis. writes: "Your medicine is O. K. I think Foley's Honey and Tar is the best for coughs. I think your medicine is all you say it is. I know I would never be without it. You may use my name." Foley's Honey and Tar acts quickly, checks coughs, cures colds and croup, cuts the phlegm, opens air passages and allays irritation. It stops sleep disturbing coughing at night. Children like it. Contains no opiates. Sayre & Haman.

## SCHROEDER TO RACE ONCE WILL RETIRE

Dayton, O., Nov. 2.—Capt. R. W. Schroeder, back from the Gordon Bennett race in France, went on duty today at McCook field, where, several months ago he made the world's altitude record. He says he will have his V. C. P. R-5 in the Politizer Airplane race at Minola, L. E. Nov. 25 and this he says will be his last race as he expects to retire to enter business in Chicago. In reference to anything out of the way in his big French race, the captain says a full report will be given the air service officials at Washington, and they may probably release it. He expects to receive his discharge Dec. 31.

## VOTING IN DAYTON BEGINS BRISKLY

Dayton, O., Nov. 2.—A drizzle early this morning passed away about the time the polls opened and by 8 o'clock people were voting faster than one every minute. Voting was heavy early with indications of continuing so. The weather is crisp and invigorating and the voting place officials save the women are getting in and out of the booths as quick, if not quicker than the men. A vote little short of registration is looked for.

## CAPTURE OF BERGDOLL NOW ANNOUNCED

New York, Nov. 2.—The statement that he had caused the arrest near Coblenz, Germany, of Grover C. Bergdoll, wealthy Philadelphia draft evader, was made here by a passenger on the steamship Rotterdam, who gave his name as J. W. Hartman and his address as 1252 Dover street, Philadelphia.

Hartman told customs officers that he once had been employed near the Bergdoll home and when several weeks ago while he was in the Coblenz area, his attention was called to a young man who just had bought a motor car, he recognized him as Bergdoll. Declaring that American army authorities at Coblenz could confirm his statements, Hartman added, "of course, they wouldn't tell you anything about it yet."

### THE DRIVE IDEA.

All our lives will be more sunny, and we'll chirp a gladder song, when they quit the "drives" for money, which have bothered us too long. All such schemes were gladly pardoned when the kaiser danced his jig, and the heart was cold and hardened that neglected to up-dig. I am always prompt and willing to help out a worthy cause, but I will not place a shilling in the drivesmith's eager paws. For I'm sick of people telling what I ought to give and where, tired of digging, shelling, for some scheme that makes me swear. I will give to help the living and I'll give to plant the dead, but I won't be bossed in giving, and I won't be chased or led. In the war time drives were splendid, and they helped to can our foes, but the war is done and ended, and the people need repose. Do not bother friends or neighbors with requests for honest dimes; leave them to their quiet labors, as we did in olden times. Do not think up worthy causes that require financial aid, for we've all been Santa Clauses till our nerves are tired and frayed.

section of New England. The northern sections of Maine, New Hampshire and Vermont were blanketed with snow.

## REPUBLICAN OFFICIAL PREDICTS LANDSLIDE FOR G. O. P. TICKET

Indications Point To State Vote Of Two Million.

Chicago, Nov. 2.—More than 2,000,000 voters will cast their ballots in Illinois today, it is expected and indications as the polls throughout the state opened at 6 o'clock this morning were that the voting would be brisk through the day.

Republican leaders were confident that the national ticket would carry easily in Illinois. Predictions were made that Harding and Coolidge would receive a plurality of upwards of 200,000. John T. Adams, vice-chairman of the Republican national committee in a last minute forecast, predicted that every northern and western state will go for Harding.

Len Small of Kankakee, the Republican nominee for governor, is opposed by James Hamilton Lewis, Democratic former United States senator from this state. Small who is regarded as the candidate of the organization headed by Mayor William Hale Thompson, of Chicago, is meeting with opposition within his own party and thousands of Republican votes are expected to go to Lewis. Small, however, was confident of his election early today. Lewis also was claiming today.

ing he would be elected by a plurality of 20,000.

Congressman William B. McKinley, Republican, is opposed for the United States senatorship by Peter A. Waller, Democrat. Republicans were predicting today that McKinley would be elected by 250,000 plurality.

Unless weather conditions, which in the early hours were unfavorable, it is expected that the state will cast the heaviest vote in its history.

## JAIL HOTEL MAN FOR LAW BREAKING

Chicago, Nov. 2.—"This man apparently is determined not to go dry," commented Federal Judge K. M. Landis today as he imposed a sentence of 30 months in the federal penitentiary at Leavenworth and a fine of \$20,000 upon Charles M. Sommers, owner of the Birchmont Hotel and of the St. James Grill.

Sommers and his cousin, William Sommers, who was sentenced to 90 days in the county jail and fined \$10,000, pleaded guilty to conspiracy to violate prohibition laws and for selling liquor.

Evidence included part of a shipment of 15 barrels of whisky from Louisville, Ky., which it was testified was being sold at the hotel and grill.

### FRANKS CAUSE DEATH

Toledo, O., Nov. 1.—Halloween celebrations caused the death of Frank Kehoe, retired Toledo business man, near Quincy, Mich., yesterday. Kehoe was instantly killed when his automobile, going at high speed, crashed into a water tank that had been thrown into the middle of the road by halloween pranksters.

## Brunswick

Make this comparison before you buy your Phonograph

DON'T buy a phonograph, any more than an automobile, without a demonstration. Name isn't all nowadays, as it used to be, when phonographs were a novelty.

Music-lovers know the real way to test—and that is by tone. The ear picks out superiority quickly. Naturalness is easily appreciated.

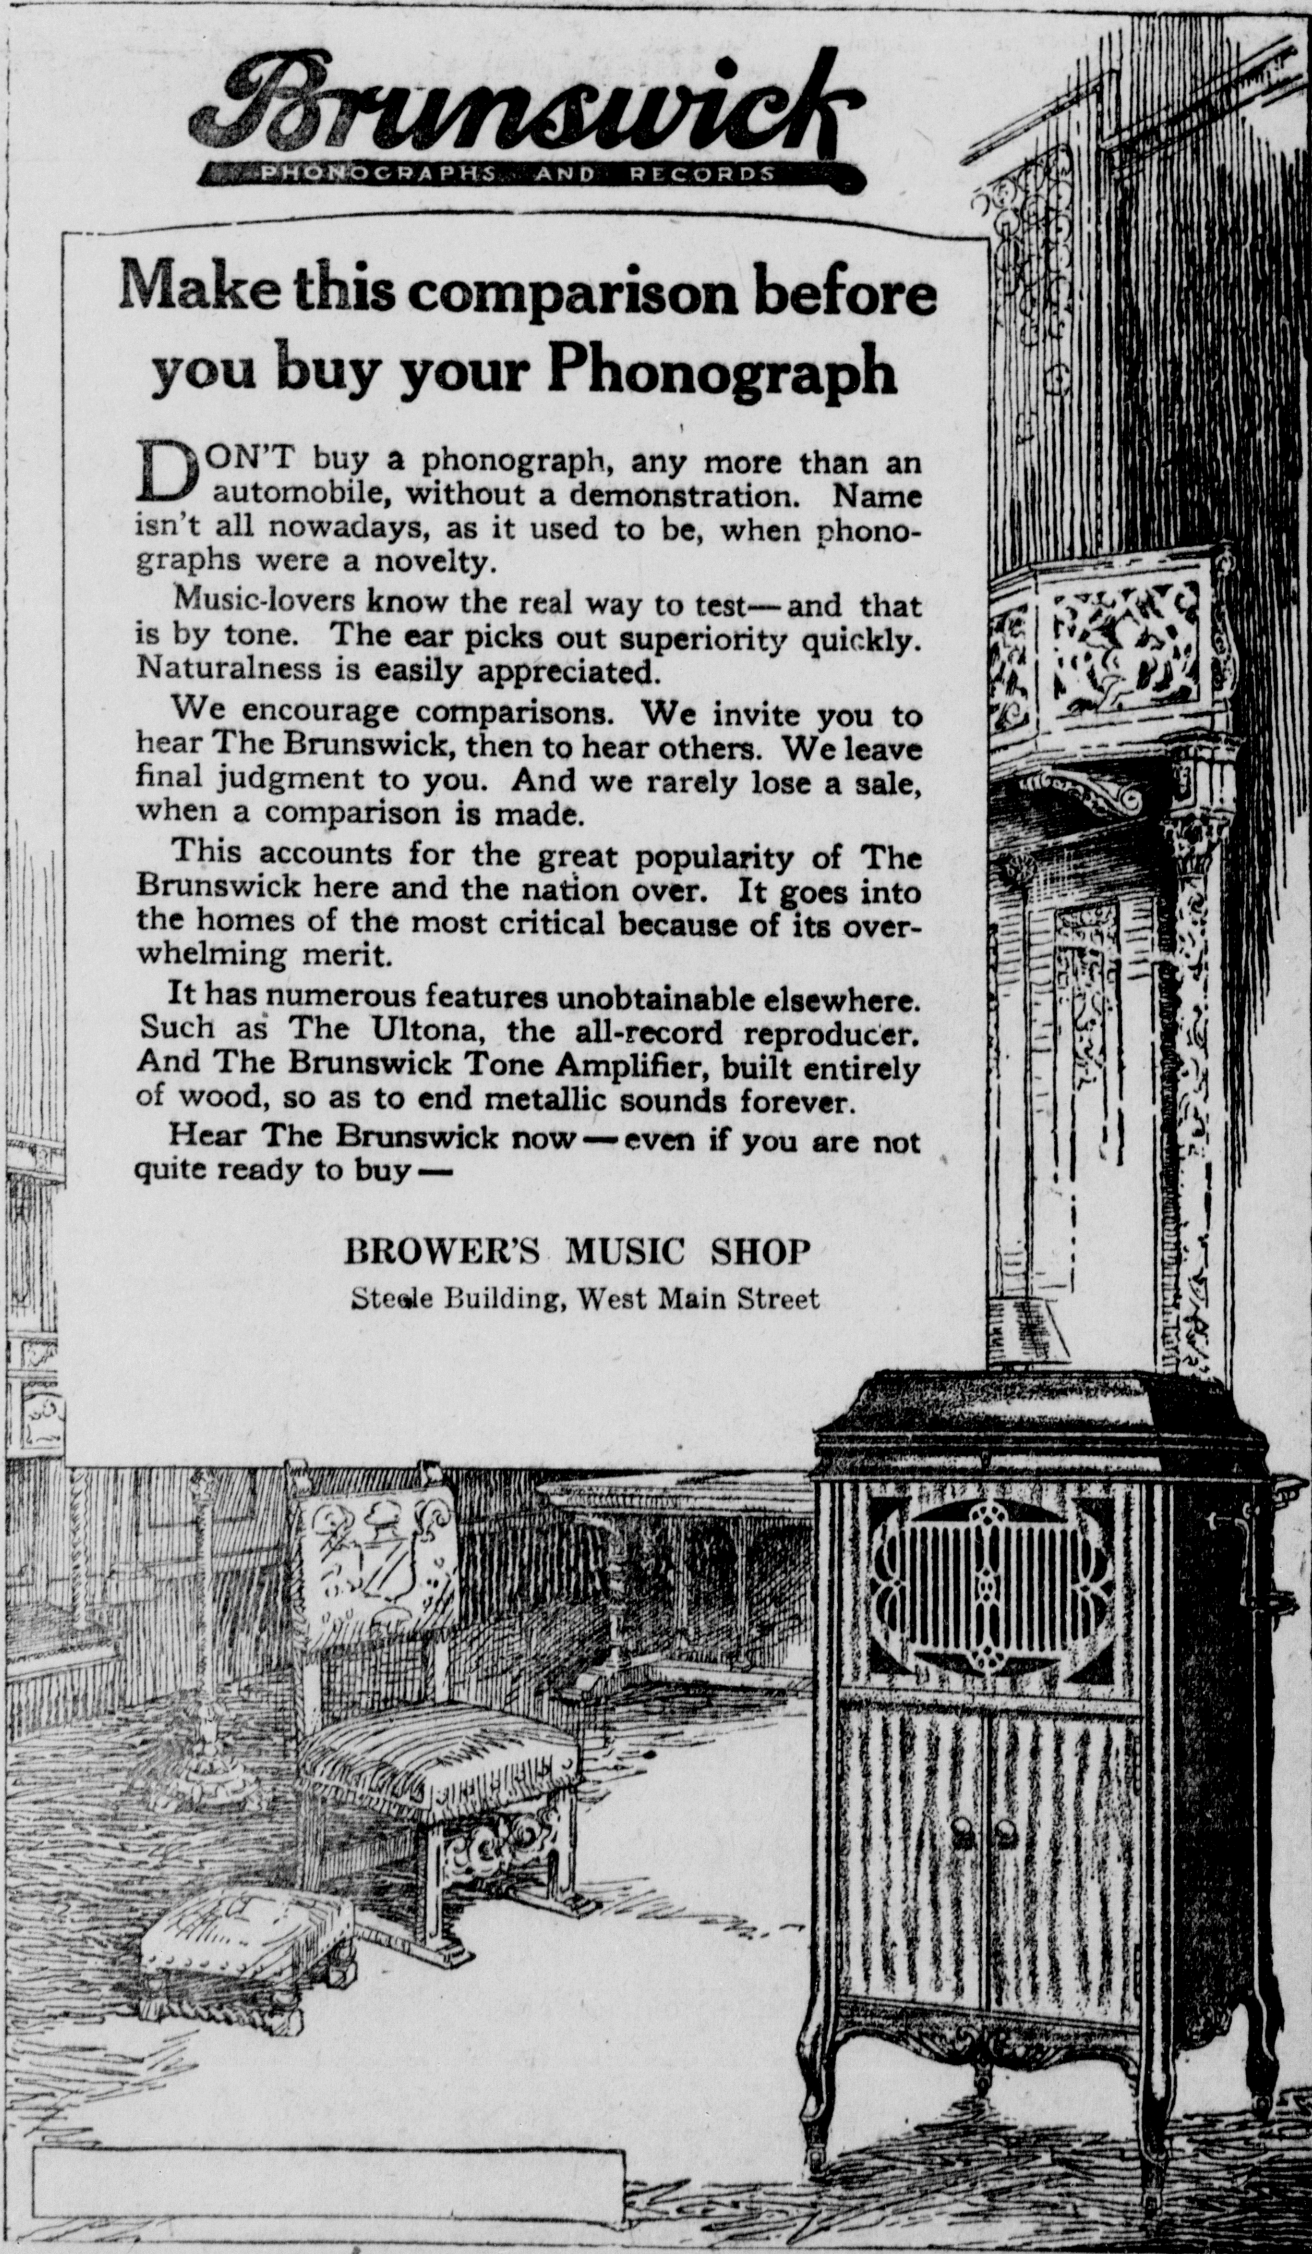

We encourage comparisons. We invite you to hear The Brunswick, then to hear others. We leave final judgment to you. And we rarely lose a sale, when a comparison is made.

This accounts for the great popularity of The Brunswick here and the nation over. It goes into the homes of the most critical because of its overwhelming merit.

It has numerous features unobtainable elsewhere. Such as The Ultona, the all-record reproducer. And The Brunswick Tone Amplifier, built entirely of wood, so as to end metallic sounds forever.

Hear The Brunswick now—even if you are not quite ready to buy—

## POLITICAL MEETINGS BARRED FROM C. OF C.

As a matter of general policy of the organization, the Chamber of Commerce eliminated all meetings of a political nature from being held in its club rooms, is the announcement of Secretary L. C. Tingley.

Various requests have come to the Chamber of Commerce management regarding the holding of political gatherings in its room, but the Board of Directors had stood firm in its policy to avoid permitting such meetings.

This is still the policy of the organization, it is said, in a statement issued regarding a meeting in the interests of Lieutenant Paul F. Dye for Congress, called for Monday evening in the Chamber of Commerce. Use of the rooms was not obtained but when it was learned that the meeting was scheduled to be held there the management denied use of the rooms in accordance with the policy of the organization.

## BIG ODDS OFFERED ON HARDING

Probably the biggest odds of pre-election betting were recorded in Xenia Monday.

On good authority it is stated that a bet was consummated offering odds of 27 to 1 that Harding would carry Dayton.

While it is not known how much money was laid at these odds, it is safe to say that the odds are greater than any offered in this section in any of the freak bets that have marked the campaign.

## HAS DISTINCTION OF CASTING FIRST VOTE

Mrs. Anna M. Haverstick, West Market street, probably bears the distinction of being the first woman to cast her ballot in Xenia, excluding women who are serving as election officials.

Mrs. Haverstick was up betimes and early to the polls, arriving at the voting place of D. Prineas, in the Harding and Coolidge Club, before 6 o'clock Thursday morning.

Her aspirations to vote first in the precinct were shattered by Mrs. A. E. Faulkner, Republican clerk, whose official duties brought her to the polls at 5:30 o'clock, but it is safe to say that Mrs. Faulkner was about the first woman exclusive of officials, to cast her vote in the city.

### JUDGMENT GIVEN

Frank Thompson was adjudged feeble minded following an inquest in Probate Court Saturday. Application has been made for entering him in the Ohio Institute for Feeble Minded at Lima.

## Is It Yours

This is the Birthday of  
**JAMES POLK**  
November 2, 1795

James Polk, eleventh President of the United States, was born in North Carolina when the country was slowly settling down under its new democratic form of government. As a boy of 11 years he crossed the mountains with his parents and settled in what was then the wild country of Tennessee. He went back to North Carolina to study, but returned to Tennessee to make his career as a lawyer.

Politics was the greatest game in the world to him. He was sent to Congress when he was 30 years old and almost immediately became known as leader of the Democratic forces. When he was 44 he retired from Congress to become Governor of Tennessee, and within a few years he was brought forward as the "dark horse" of the Democratic National Convention in Baltimore.

Polk's policy of immediate annexation of Texas increased his popularity and he was elected President. During his term of office the four chief events were the war with Mexico, the establishment of an independent treasury system, the reduction of the tariff, and the adjustment of a disputed boundary by a treaty with Great Britain. Polk was an ardent expansionist. He approved of the acquisition of California, Utah and New Mexico. At the close of his term he retired to Tennessee, where he died in a few months. He was then only 54 years of age.

## SCHOOLS PLAN JOINT MEETING

The West Point and Collins Schools in Xenia township are planning a joint entertainment to be held at the Collins school next Thursday evening. Children of both schools are combining in presenting a pageant depicting a dramatization of "Hiawatha" and of the coming of the Pilgrims. A number of students will take part in the pageant.

### AN OVERBURDENED WIFE

If the work that women do and the pains they suffer could be measured in figures, what a terrible array they would present! Through girlhood, wifehood and motherhood woman toils on, often suffering with backache, pains in side, headaches and nervousness which are tell-tale symptoms of organic derangements which Lydia E. Pinkham's Vegetable Compound—made from roots and herbs—can undoubtedly correct. Women who suffer should not give up hope until they have given it a trial.

## With The Women of Today

The title of fastest typist in America, was won by a man this year, but a girl holds second place. She is Miss Margaret B. Owen of Chicago. Four times Miss Owen has held the championship, once in 1918 with a record of 143 correct words a minute. George L. Hossfeld who beat her in this held in connection with the National Business Show, averaged only 131 correct words a minute.

Miss Owen became champion for the first time in 1913, when it was said of her that she could "write 125 words a minute, carry on a conversation and occasionally stop to fix her hair." She won again in 1915 with 136 correct words, but there is no record of her doing other things at the same time. In 1916 her record was 137 words and in 1917 it was 143 words. Hossfeld won in 1918 with the same number.

How many business men would like a typist who wrote 143 words a minute correctly—and did not chew gum?

### WOMAN MAY SIT IN UPPER HOUSE.

Lady Rhonda, widow of the late Viscount Rhonda, formerly food controller, of England, has sent a petition to the crown applying for a writ permitting her to sit in the house of lords. She bases her petition on the contention that the laws framed recently which make the sexes equal before the law should enable her to have the one privilege denied her, that of sitting in the house of lords.

The success of her application would mean that about 25 peeresses in their own right would be entitled to sit in the upper house. Peeresses in their own right, unlike their husbands' titles, are entitled to all the privileges of peers with the exception of sitting in the house of lords.

Lady Rhonda has opened one of the greatest constitutional questions which has been discussed in England in many years.

Miss Margaret V. Landmann of Prospect Plains, N. J., has met with marked success in the operation of an experimental seed farm.

St. Louis has a 15-year-old girl rabbi, Leona Hurwitz, by name, who has delivered several sermons in Temple Israel in that city. Miss Hurwitz is said to be the only girl or woman in America who has ever acted in a rabbinical capacity.

Thirty girls employed in a syrup factory near New Orleans quit work when the management decreed they should wear bloomer costumes for the sake of safety and economy. Ninety other girl employees decided in favor of bloomers and their jobs.

## Soft Coal Economy With Hard Coal COMFORT

### 20th Century Laurel Heater

extracts every available heat unit from the fuel even to actually consuming the smoke and soot, which with the ordinary soft coal heater escapes into the room or up the flue.

Not only is soft coal burned with hard coal cleanliness, but the special door construction makes it possible to burn large chunks of wood without resplitting.

With the scarcity and high cost of hard coal you will find the use of the 20th Century Laurel Heater both safe and economical.

A factory representative, Mr. Wilson, will demonstrate the 20th Century Laurel Heater in front of our store Thursday, Friday and Saturday, Nov. 4, 5, and 6.

This is the Stove Polish YOU Should Use

It's different from others because more care is taken in the making and the materials used are of higher grade.

**Black Silk Stove Polish**

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware dealers.

All we ask is a trial. Use it on your cook stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—your quality.

**BLACK SILK STOVE POLISH WORKS** Sterling, Illinois

Use Black Silk Air-Drying Iron Enamel on grates, registers, stovepipes—prevents rusting. Use Black Silk Metal Polish for silver, nickel or brass. It has no equal for use on automobiles.

## JAMESTOWN

Mayor and Mrs. J. A. Mercer entertained the members of the Rural Improvement Club with their families as invited guests on Friday evening. The rooms were decorated in keeping with the Halloween season. Bright colored autumn leaves with black cats and pumpkin faces peering here and there. The amusement feature of the evening was playing charade. The words used being the different names of automobiles, and the accessories thereof. Then one of the women guests dressed in black and orange colors was a gypsy fortune teller in an improvised tent in the bay window which created a treat of mirth. A bountiful buffet supper was served which was partaken by about 40 persons. The hostess was assisted by her two daughters Mrs. George Ensign and Mrs. C. W. Mott.

Mrs. Jesse Taylor has been the guest for several days of Mr. and Mrs. Edward Johnson of Columbus. Mr. and Mrs. Otto Deubner and little son Russell, of Glendale, have been visiting at the home of Mrs. Deubner's parents, Mr. and Mrs. G. W. Leveck, Mr. and Mrs. Will Leveck of Columbus, have also been guests at the Leveck home.

Gordon Langdon, son-in-law of Mrs. Mary Morris, with his family have motored to Abilene, Texas, after spending a year in California.

Miss Grace Nieberger has returned to her home in Jamestown after spending several weeks with friends at Cleveland.

Mrs. Carl Fent of Washington, C. P. has been visiting her parents Mr. and Mrs. John Jenks.

C. E. Roberts of London was a week end visitor with his parents Mr. and Mrs. James Roberts.

The members of the Jamestown Masonic lodge with the members of the Jamestown Chapter of the Eastern Star gave a farewell reception for Mr. and Mrs. Ralph H. Glass on Friday evening at the lodge rooms. As a token of high esteem and fraternal regard, The were each presented with a remembrance gift. The Rev. Willis A. Cooper with well chosen words presented Mr. Glass with a watch chain in the form of a small gold knife on which was engraved the Masonic emblem. While Mrs. E. ## AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at a drug store for "Wright's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Wright's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

## Mr. Arthur Sharp Tells How Cuticura Healed Pimples

"My trouble began with sort of an itching and burning sensation which bothered me. Then pimples began coming out on my face. Soon my face was a mass of itching, burning pimples, which disfigured me greatly, and the discomfort was terrible. I scratched the pimples and irritated them more, and some nights I lost much sleep."

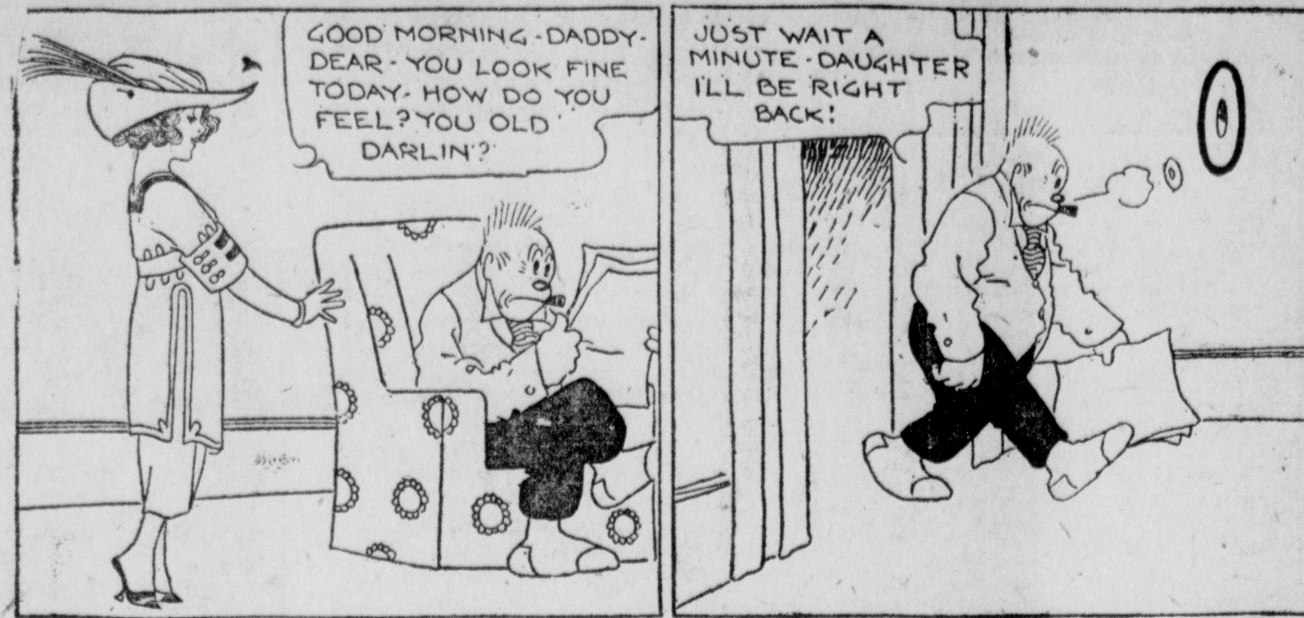

"I sent for a free sample of the Cuticura Preparations and was pleased with the result. I bought more, and after using one cake of Soap and less than a box of Ointment I was healed."

(Signed) Arthur Sharp, Box 394, Salineville, Ohio.

Once clear, keep your skin clear by using Cuticura Soap and Ointment for every-day toilet purposes and Cuticura Talcum to powder and perfume. Nothing better.

Sample Book Free by Mail. Address: "Cuticura Laboratories, Dept. B, Malden, Mass." Enclose: 10c. Stamp for 10c. Ointment and 10c. Soap. Cuticura Soap always without charge.

### THE CHEERFUL CHERUB

I'm disappointed in a friend.  
A state that's wounded many hearts.  
And I was always good to him.  
Ah, this it is that really smarts!

## HUSBAND OF FORMER XENIAN IS CANDIDATE

Rufus L. Weaver, of Westbury, N. Y., whose wife was before marriage, Miss Sarah Harbline, of this city, is the Democratic opponent of Col. Theodore Roosevelt for Assembly in the Second District of New York.

Placards bearing the picture of Mr. Weaver, who is a New York attorney, have been received here. He is receiving the support of the newly enfranchised women voters of the precinct because of his introduction in four different assemblies of a bill provides that women in New York will inherit equally with their brothers and husbands in case of all relatives dying without a will.

The Westbury (N. Y.) Times says of him: "Take two minutes and examine thoroughly his record in the Assembly. Then call to mind the mandate, 'by their fruits ye shall know them,' and you have Biblical authority for casting your ballot for Rufus L. Weaver, a just and experienced lawyer, a man with a big heart, a big brain and of indomitable energy."

### APPLE AND GRAPE TIME.

Sweet Apple Preserves—Sweet apple pickles may be made more like preserves and may be put away in gallon or half gallon crocks, thus saving the cans. If put away in crocks, cover the top of the crocks to be opened next spring with paraffin. Sweet Russets are the best apples to use, as they are tough and will not break in cooking.

One peck apples quartered, five pounds brown sugar, one pint of strong cider vinegar, one quart water.

Tie spices in a little muslin bag and let boil with the apples. Boil syrup, add apples, let cook until apples are tender. The syrup should be rich and thick by the time apples are tender.

Apple Relish—Use six pounds of quartered and cored apples, six pounds of sugar, two pounds of raisins, two whole oranges. Put the fruit through the food chopper, using the finest knife. Add the sugar, one pint of vinegar, one teaspoon cinnamon and one-half teaspoon cloves.

Cook slowly on the back of the stove until thoroughly cooked and thick. Seal in jars while hot.

Grape Cobbler—Make a rich biscuit dough, roll thin, line deep tin. Seed two cups grapes. Put

in the pan with one-half cup sugar, two tablespoons flour. Put on a top crust, cut cross slits each way in middle. Fold back corners to make a square. Bake.

Make a sauce of three-quarters cup boiling water, one tablespoon flour, one-half cup sugar, one tablespoon butter, dash of nutmeg. When the cobbler is brown, pour sauce in square opening, return to oven for ten or fifteen minutes.

Canning Grapes—Take any desired quantity of grapes, pick from stem, then remove skins from them. Cook pulp separately until thoroughly cooked, remove from fire, run through a colander.

In this way removing all the seeds, take the seeded pulp and cook with the skins, adding sugar very generously. When cooked to the desired consistency remove from fire and can. Grapes prepared in this way are very delicious for pies. Adding apple sauce to a small amount of this grape sauce also makes delicious pies.

### TESTED RECIPE.

Croquettes—This is a skeleton recipe which can be used for all kinds of croquettes; simply change the seasoning to suit the taste:

To one pint ground meat (cooked and cold), use one-half pint milk, two tablespoons flour, one tablespoon butter (if desired), one egg. Add butter to the milk, heat, then put in the meat. Stir in the flour blended into a smooth paste with water; season to suit taste with onion juice, parsley, salt and pepper. Cook until mixture drops from spoon.

Remove from fire, stir in one well-beaten egg. When thoroughly blended let cool. Form into small rolls. Beat one egg and add one tablespoon water. (The water makes egg go farther). Roll or dip croquettes in the egg, then in dry bread crumbs. Fry in hot fat, or bake in a slow oven.

## "The Woman He Married"

BY JANE PHELPS

### THE BEGINNING—ENVY

Chapter 2  
Dick had made a good many acquaintances in New York, and they had been most cordial to me. We gradually became members of a little coterie of young married people, all in about the same circumstances.

As I became acquainted we went to many gay little parties. We played bridge twice a week for infinitesimal sums. Sometimes we went to a theater, sitting in the balcony, or to a restaurant; but often we gave little chafing dish parties in our homes. I had a set of which I was incredibly proud—one of my wedding presents.

Sometimes now as I look back down the years that have passed, I wonder if anyone was ever happier than I was in those first few months of my married life. Or if anyone ever lost their happiness so foolishly?

I do not think I am the only woman who, loving her husband, has been the cause of his distress, or who has played upon his love for her to compel him to indulge her desires. It is because I feel sure that I am not the only one, that I am baring my life, my emotions in the hope that I may help other women, other girls to avoid the disaster into which I fell.

Dick's people were all in Europe when we married. They lived in Chicago. His father was an invalid and he had one sister married to a very

wealthy and aristocratic man.

About four months after we were married, and after they had returned from abroad, Dick's firm made it possible for us to visit them by sending him to Chicago on business.

"My expenses will all be paid, Nan,"—my name was Nancy—"and they have been very generous. I can save half enough for your expenses out of what they allow me. I want my people to know you, dear."

His father and mother lived with the sister so we would visit them all together.

From the moment I was introduced to my mother, I disliked her. She kept talking of the marriage, her daughter had made and how she had hoped Dick would have settled in Chicago where he could enjoy the best of society, etc. Of course she didn't say so, but she made me feel that if he had done so he might also have a more advantageous marriage.

Aside from this feeling Mrs. Williams gave there was another reason I failed to enjoy my visit. His sister, Agnes Deland was one of the most beautifully dressed women I had ever seen. I had been perfectly satisfied with my clothes when Mary Jones the village dressmaker and I had made them, but I had gradually become becoming dissatisfied when I left New York for this visit. Now I hated every single thing I had. They seemed to make me look awkward, almost ridiculous. And when I heard

Agnes say to her mother:

"She's a fright! She must have taken some of those women's magazines and sent for patterns," I hated her as well as the clothes. It was exactly what I had done.

They were kind to me in many ways, but always patronizing. Instead of making me humble as I thought they meant I should be, I made me determined to show them some day that I could be stylish, too, if I had the clothes—and it also made me determined to have the clothes.

Dick must get them for me. When we retired one night he asked me what had made me so quiet.

"I look a frump!" I burst out. "Isn't your business nearly attended to? I want to get away where I can't see your sister's lovely clothes. I am dying with envy."

"Nonsense! When I am as old as Charles"—Agnes' husband—"I'll be able to get just as nice things for you I hope."

"I'll be old, too, then! Remember, I didn't do as your sister did, marry an old man for his money."

"No, dear you married a poor young man who loves you dearly."

"Prove it, then, by making money! I can have what I want."

Dick looked hurt, but I wouldn't say I was sorry and we went to bed with a little coldness between us—for the first time.

Tomorrow—Home Again

Shorty runs into Teebo!  
"Snapper" Teebo!  
Dear Pete.

Atlanta, Ga. Wednesday.

Checked up our old dormitory pal "Snapper" Teebo this morning waiting on an appointment down Peachtree Street. "Snapper" wanted to know a book full about my visit to the Camel factories. "Tell us, old apple seed," says Snapper, "you're on the inside!" Snapper still has that mighty annoying way of saying "But that doesn't surprise me!" Some day I'll soak him—maybe that will be a surprise!

Anyhow—when I explained about the millions of Camels R. T. Reynolds Tobacco Co. made daily what does the old bird sputter but: "Why, Shorty, they'd have to make that many to supply the demand! Camels have the quality smokers want! And, they have the most wonderful mellow mild body and the most refreshing flavor ever created in a cigarette! Of course they make Camels by millions; of course they buy enough revenue stamps from 'Uncle Sam' every work day to build a duplicate of the Winston-Salem post office! Why not? Smokers will have Camels!"

But "Snapper" finally got to spilling some real nobby Camel selling stuff! Shorty, says he, "write the Reynolds folks for me that I travel and talk some with the world in a year's time. And I want to put it on record that in all the times I've pulled Camels out of my pocket to supply somebody's shortage I've heard enough good things said about 'em to fill a volume!" That's my brand, "Camels are a wonderful cigarette," "Like getting money from home, etc!"

And, Shorty, what's the answer? Why—Camels quality and Camels blend of choice Turkish and choice Domestic tobaccos meet the universal taste! That's it! Get me right, my! They all open their shutters for Camels! You'll find that all over the nation! And, that's the hole story, old golf ball! Pete, you get phonograph, did you ever hear a better record?

Sincerely  
Shorty.
